👤 Profile

Dynamic Flutter Developer with 3 years of experience in creating innovative fintech and cross-platform applications, impacting over 3 million users. Expert in leveraging Flutter and Dart to deliver secure and efficient banking solutions, employing best practices in clean architecture and CI/CD pipelines. Proven track record in developing scalable mobile applications that enhance user experience and drive market adoption. Committed to continuous improvement and optimization, consistently achieving significant performance enhancements in app functionality. Dedicated to shaping the future of mobile technology in the financial services sector.

📁 Professional Experience

F1Soft International Pvt. Ltd.  07/2024 – Present

Flutter Developer

- Developed banking apps for 3M+ users in Nepal's largest DFS ecosystem.
- Implemented secure fintech features using Riverpod and CI/CD pipelines, reducing deployment errors by 25%.
- Contributed to mobile payment and lending solutions, achieving 90% market share.
- Collaborated with cross-functional teams to enhance app performance and user experience.
- Designed and executed unit and integration tests to ensure app reliability.

Dynamic Technosoft Pvt. Ltd.  01/2023 – 07/2024

Flutter Developer

- Developed ERP, HRM & academic management apps serving 500+ clients.
- Created Nepal's first IRD-approved accounting software mobile companion.
- Enhanced app performance by 30% through clean architecture implementation.
- Collaborated with cross-functional teams to align app features with user needs.
- Conducted thorough testing and debugging to ensure optimal functionality.

DV Excellus Pvt. Ltd.  01/2022 – 12/2022

Flutter Developer

- Spearheaded development of KHETI platform, Nepal's first digital agri-loan service.
- Integrated NMB Bank APIs, facilitating collateral-free loans to over 1000 farmers.
- Delivered citizen services app for Pokhara Metropolitan City.
- Collaborated with cross-functional teams to ensure seamless app functionality.
- Championed best practices in app development, enhancing user experience and security.

🎓 Education

Bachelor of Information Technology 10/2019 – 2023

Texas College of Management and IT 

Flutter Certification 2022

Mindrises Consortium

Technical Skills

Programming Language and Frameworks: Dart, Flutter, HTML, CSS, Javascript

Project Management Tools: Jira, Clickup

Language: Nepali, English, Hindi

Interest: Entrepreneurship, Reading Book (Business, Finance), Music.

Roles and Responsibilities:

- Collaborated with UI/UX, product, and engineering teams to deliver scalable fintech and cross-platform applications.
- Implemented clean architecture, modular code structure, and design patterns to ensure maintainability and scalability.
- Integrated REST APIs, third-party services, and secure banking modules, ensuring seamless communication between client and server.
- Ensured reliable data handling with state management (Riverpod/Provider/BLoC) and optimized storage using local DBs (Hive/SQL).
- Optimized app performance, reducing load time and enhancing responsiveness for better user experience.
- Conducted code reviews and enforced coding standards to maintain high-quality, testable codebase.
- Led technical discussions, provided regular updates, and collaborated on problem-solving with cross-functional teams.
- Mentored junior developers, improving code quality, productivity, and technical skill adoption within the team.

Projects:

F1Soft Banking Suite:

F1Soft Banking Suite - Nepal's Largest Digital Banking Ecosystem

- Part of **digital banking infrastructure powering 90% of financial institutions**
- Developed core **wallet, fund transfer, mobile banking, and loan modules** using **Flutter & Riverpod**
- Integrated **secure authentication, biometric login, and device binding** for enhanced security
- Implemented **CI/CD pipelines (Fastlane, Bitrise/GitLab)** - reduced deployment errors & improved release efficiency
- Designed optimized **KYC, payment, statement, and support** user flows
- Improved app performance & reduced crash ratio through **Crashlytics-based monitoring & code optimization**

Dynamic ERP Suite:

Dynamic ERP & Accounting Suite - Enterprise Mobile Ecosystem

- Delivered **ERP, HRM, and IRD-approved accounting** mobile solutions for **500+ businesses**
- Developed **finance, payroll, attendance, sales & accounting** modules using **Flutter**
- Integrated real-time **GST/IRD tax calculation, invoice & receipt generation**, and reporting
- Worked with **product & backend teams** to convert **desktop ERP workflows** into mobile experience
- Built **dashboards, analytics widgets, and push-notification-based task flows**
- Implemented **clean architecture** and **offline-first** support for field & remote users
- Improved app performance & load time through **modular architecture & code optimization**

KHETI Agricultural Platform:

KHETI Agricultural Platform - Nepal's First Digital Agri-Loan System

- Enable **collateral-free loans** for **1000+ farmers** through **NMB Bank**

- Built mobile app **architecture** for **farmer onboarding, loan journey & repayment workflows**
- Integrated **secure loan APIs, eKYC verification, and automated eligibility checks**
- Designed intuitive "**Buy Today, Pay Later**" agri-credit product flows
- Optimized **UX for rural users** with **simple language support** and **offline handling**
- Collaborated with **bank teams & government partners** to ensure **digital lending compliance**
- Ensured **high-level encryption** and **secure data communication** for sensitive financial data
